

## Company Overview

**TigerSwan**  
Providing Solutions to Uncertainty®

TigerSwan Inc. provides a broad spectrum of security and risk mitigation services to both government and corporate clients. Headquartered in Apex, North Carolina the company was founded in 2007 by former members of the U.S. military's "Delta Force". Since its inception, TigerSwan has strived to establish itself as a leader in the fields of high risk corporate security, military support services in high risk environments and training services for the military and law enforcement agencies. While doing so, we have developed a business culture that makes us uniquely qualified to accommodate the needs of companies, governments, and international agencies seeking problem solvers, security leaders, program managers and world renowned trainers.

Our mission is to provide "**Solutions to Uncertainty**"® and we specialize in delivering customized services for governmental and corporate organizations. Our current operations span Afghanistan, South America, Central America, Iraq and the Kingdom of Saudi Arabia. Our clients include the U.S. Department of State, Department of Defense and a variety of multi-national corporations. Moreover, our capabilities and facilities enable us to respond to a wide range of client needs with speed, precision and a focus on customer satisfaction.

At TigerSwan, we believe success stems from our core principles of integrity, flexibility and dynamic, interactive customer service. "**Solutions to Uncertainty**"® is not only our motto, but our legacy and mission. Our experience in risk mitigation and security & stability operations - coupled with a history of leading interagency actions in high-risk regions throughout the world - is not just a testament to past performance, but the foundation on which we have established a reputation known for quality and reliability.

## Capabilities & Services

**Vulnerability Management** – At TigerSwan, we protect our clients, their reputations, and the lives of their personnel by providing threat-based, pro-active solutions to holistically manage customer vulnerabilities. We provide a full range of physical security services, information security and social media analysis to protect our clients' personnel, intellectual & physical assets and strategic advantage while operating in an uncertain global environment.

- *Security Services* – TigerSwan offers comprehensive security and protection services including personal security details, travel risk analysis and vulnerability assessments. We provide executive protection services, convoy protection and life support services. We also provide emergency action planning, crisis management and evacuation planning services and can manage and execute medical or emergency extraction operations if needed.
- *Guardian Angel Services* – TigerSwan provides 24/7 global tracking and monitoring of individuals or vehicles from a purpose built operations center in North Carolina. Our beacons use both GSM and GPS technology to track clients and provide for text messaging and limited voice communications in the event of an emergency. The Guardian Angel service ensures clients are only the push of a button away from a rapid intervention and emergency evacuation if required.

- *Cyber Security Services* – Reliance on technology has led to increased challenges involving the protection of information and intellectual property rights. Recognizing the information security challenges that have emerged, TigerSwan provides a range of cyber and IT services to our clients. We can perform vulnerability assessments, identify security risks, examine compliance with NIST standards, conduct penetration tests, and evaluate overall IT security. Our aim is to provide a holistic security assessment, delivering comprehensive solutions that encompass protection of networks, individuals, facilities and electronic communications.

**Global Stability** – TigerSwan offers a broad spectrum of support services in non-permissive environments that are coordinated through our Global Stability Division. These include:

- *Construction and Logistics Services* – TigerSwan provides services including architectural design, turnkey construction, logistics support, supply chain management and equipment procurement.
- *Advisory Services* – TigerSwan employs highly skilled, well educated professionals who provide subject matter expertise and advisory services involving leadership development, local mentor programs, risk analysis, mitigation guidance and consultation services in a variety of fields.
- *Program Management* – Through our support of government and commercial clients in high risk, dynamic environments, TigerSwan has extensive program management expertise. We provide cost effective solutions, delivered on time with strict quality control and safety standards.
- *Language and Translation Services* – TigerSwan provides the full spectrum of linguist services including interpreters, translators, interrogators, role players, and cultural advisors.
