

IDEMIA National Security Solutions LLC**RE: Border Security Technology Consortium (BSTC) – Membership Application****Capabilities Statement:**

IDEMIA National Security Solutions (NSS) is a Foreign Ownership, Control or Influence (FOCI) mitigated IDEMIA affiliate, providing the U.S. National Security and Public Safety sectors with leading solutions and services for Comprehensive Facility Security, Identity-driven Situational Awareness, and Secure Credentialing. NSS is the industry's foremost video surveillance technology provider, offering predictive, preventive, and investigative analytics. Our best-in-class identity solutions are top-rated by NIST for speed, accuracy, and reliability.

NSS has supported the Department of Defense (DoD) and its partners across the Federal Government for over 60 years, and is an expert in biometrics (Face, Finger, Iris, Palm, Scar, Marks, and Tattoos) and secure credentials.

- We provide 3 of the 4 top biometrics systems in the United States government – US Department of State, United States Department of Defense and United States Department of Justice, while our affiliate IDEMIA has supplied cutting-edge identity technology to local law enforcement, transportation security, and national security agencies around the world.
- We design secure identity credentials such as national ID cards, passports, vehicle documents, driver's licenses, and healthcare documents, with more than 3 billion identity documents produced in 130 countries worldwide.
- We produce the preprinted RFID-enabled card stock that is ready for personalization.
- We have held the State Department contracts to print the US Passport for more than 15 years.
- We have provided RFID secure credentials for Passport Card/Border Crossing Card programs.

We are committed to delivering robust and proven solutions to address current and future concerns about secure, hygienic access (physical and logical), crowd management, and situation awareness solutions.
